

Children Affected by Parental Substance Misuse (CAPSM) Training

Target Audience:

This training is relevant to all staff working with Adults and Children that may be affected by substance misuse.

The aim of this training session is to:

- Increase knowledge of CAPSM and Getting Our Priorities Right
- Raise awareness of the Vulnerable Young Person's Protocol
- Understand the risk factors associated with Drug Related Deaths
- Know the range of drug and alcohol services available in Borders and how to refer
